# My New Concept

---

This is where I explore creating a concept in DITA.

La di da, this is a concept. Look, I am writing a paragraph.

**Warning:** A note can be a warning!

**Tip:** Don't fasten the bolts too tightly. First make sure all the pieces fit well together, and then tighten them down firmly.

## This is Markdown

This "concept" wasn't created in DITA at all! 0942

- It's Markdown
- It's processed by `dita-ot`
- That's cool

Here's an HTML table!

Does HTML get processed?

**Tip:** Don't fasten the bolts too tightly. First make sure all the pieces fit well together, and then tighten them down firmly.
